

HERBIFY

Product Catalogue

51 botanicals, seeds, spices and natural gums presented for qualified B2B trade enquiries.

22	20	7	2
HERBS	SEEDS	SPICES	GUMS

Trade-reference note

Packing, net weight and container-load figures are indicative ranges for initial planning. Actual loads depend on grade, cut, bulk density, packaging, palletisation, destination rules and carrier limits, and are confirmed with the buyer at specification stage. Products are not currently offered for public purchase; availability is by direct enquiry only.

Reference basis

Ranges draw on CBI bulk-packaging guidance for spices, herbs, sesame and acacia gum; FAO dried-herb and spice quality guidance; and published standard-container payload limits. They are commercial planning references, not certificates of analysis or shipment guarantees.
